This winter the WINERIES & GRILLE partnered with 7 Hawks Vineyard, Fountain City and Elmaro Winery, Trempealeau to provide the largest assortment of locally grown wines in the Twin Cities Metro Area.

These wines are hard to find and almost impossible to buy by the glass.

As we craft and market these wines with our new partners, we offer you the opportunity to enjoy these with a meal and to compare these new grapes with more traditional varieties.

We also have Wine from 3 traditional Wineries: one is from South Africa, one from California and one is from Chile.
