

My Passport[™] Essential[™] SE

Portable Hard Drives

**Maximum capacity
in a smaller drive**

Automatic, continuous backup

Visual backup control center

Password protection and hardware-based encryption

The world's most popular portable drive now features more capacity than ever to store all the important memories of your digital life. It also includes automatic, continuous backup and password protection. How smart is that!

PUT YOUR LIFE ON IT[®]

My Passport Essential SE

Portable Hard Drives

Product Features

WD SmartWare™ Software

See your life safe in one place.

See your backup as it happens

Seeing is believing. Visual backup displays your content in categories and shows the progress of your backup.

Protect your data automatically

Relax, your data is secure. Automatic, continuous backup will instantly make a second copy whenever you add or change a file.

Bring back lost files effortlessly

Retrieve your valuable data to its original location whether you've lost all your data or just overwritten an important file.

Take control

Customize your backup, set drive security, run diagnostics, manage the power settings, and more from the WD SmartWare control center.

Visual backup displays your content categories and confirms that your files have been backed up.

Maximum capacity, maximum style

Store all your favorite videos, music, photos, and important files. Still sleek and compact, you can load it up and take it with you anywhere.

Drive lock

Gain peace of mind knowing that your data is protected from unauthorized access or theft with password protection and 256-bit hardware-based encryption.

Planet friendly

We designed a small retail box from recycled materials to minimize waste. We encourage you to recycle it.

Ready to plug-and-play with Windows PCs

If you're a Mac user, check out our Mac version of this product.

USB 2.0 interface

Powered directly from the USB port on your PC. No separate power supply is needed.

An optional cable is available for the few computers that limit power from the USB port.

As used for storage capacity, one megabyte (MB) = one million bytes, one gigabyte (GB) = one billion bytes, and one terabyte (TB) = one trillion bytes. Total accessible capacity varies depending on operating environment. As used for transfer rate or interface, megabyte per second (MB/s) = one million bytes per second, and gigabit per second (Gb/s) = one billion bits per second.
