INTERACTIVITY	
QPair™	Link your tablet and Android™ (4.1 or higher) smartphone so call, message, memo, and other notifications can be used between both; when paired, conveniently locate misplaced devices with the press of a button.*
Smart Keyboard	An intuitive, easy-input keyboard that provides comfortable, efficient operation and adapts to the user. Advanced features include keyboard height control, adaptive area recognition based on word prediction, and easy cursor control.
Knock On™	Double tap the screen to put your phone to sleep/wake it without picking i up or pressing the Power/Lock Key.
Knock Code™	Create a three to eight point tapping pattern for superior security and dire access to the home screen.
Smart Cleaning™	Free up space by deleting temporary files and removing infrequently used apps.
QuickMemo+™	Write or draw on any screen and schedule memos to appear based on calendar or location inputs.
Dual Window™	Use two apps on a split screen simultaneously.
Multi-User Function	Share your device with different users while being assured that your content is safe.
Polaris® Office 5	PC-like office suite app for viewing documents, presentations, and spreadsheets.
•	Compatible with phones running Android™ 4.1 or later and QPair™ application installation from Google Play Store is required. Some functionality might be limited depending on your phone.
