DUAL SIM CARD

A Dual SIM phone gives you several advantages over a Single SIM.

By having two SIM slots in your mobile device, you do not have to worry about:

- Exchanging SIM cards from one phone to another.
- Carrying two phones in your pocket.
- Charging two devices.

Also, you could take advantage of different voice/data plans for better rates, better coverage, and separate bills. You can also separate personal from business calls, and the international traveler could avoid roaming charges by having one domestic carrier SIM and one international carrier SIM.

KEY SELLING POINTS
