

# EYEBROW STAMP

PRESS

PLACE

PERFECTION

Depending on the size and shape of your eyebrow, you may end up with some excess powder around your eyebrows. Just dab a cotton swab with some makeup remover and wipe along the outside of your eyebrows to clean off excess powder.

Is the powder color too dark? You can use an eyebrow brush or spoolie to brush the powder into your eyebrows, getting rid of excess powder and helping to blend in the color!

Instead of stamping directly onto your eyebrows, try guiding the stamp along your eyebrow. Start at either end of your eyebrow and roll the stamp along the shape of your eyebrow for a more even application.

**NOTE: THE STAMPS ARE LABELED WITH "R" FOR RIGHT EYEBROW AND "L" FOR LEFT EYEBROW. MAKE SURE TO USE THE CORRECT STAMP ON THE CORRECT SIDE BEFORE APPLYING.**
