

# NEW YOU!

Resolve to be hotter than ever by trying 10 mini makeovers for A-list hair, skin and nails

## Get Golden Locks

Run gold shimmer powder through strands around your hairline and crown for temporarily sun-kissed strands, says **Renée Zellweger's** colorist Jason Backe.

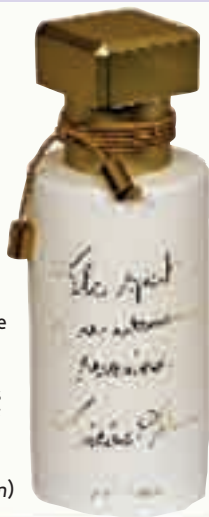

▶ The All Nighter All Over Shimmer Powder also gives limp locks lift. (\$18, [theall-nighter.com](http://theall-nighter.com))

## Add Eyelashes for Extra Glamour

Amp up your eyes with falsies. First, "darken inner rims with black liner," says lash pro Sara Strand (who's worked with **Mischa Barton**). Then dot each strip with glue and let dry for a few seconds. Apply strips to inner corners, then press on along lash lines.

▶ Kre•at Beauty Lashes Half Lash works on all eyes. (\$12, [kreatbeauty.com](http://kreatbeauty.com))

▶ Femme Fekkai Sensuelle Eau de Parfum contains notes of jasmine. (\$95, [fekkai.com](http://fekkai.com))

## Scent Your Locks

For fragrance that lasts longer, try spritzing your signature eau into hair rather than on pulse points. "Hair holds an aroma longer because it's more porous than skin," says celeb stylist Lisa Lord (**Hilary Duff** is a client). Spray scent on to your dry, finished style.

▶ Shu Uemura Lipstick in PK369 works on all skin tones. (\$23, [sephora.com](http://sephora.com))

## Whiten Your Smile

"Brighten teeth with at-home strips or a paint-on kit that contains peroxide," suggests celeb dentist Gary Davidowitz. To create the illusion of a whiter smile in seconds, swipe on a blue-red lipstick, which reflects light.
