

Performance Tune-up \$149.99

Live to Ride, Ride to Live. 3-4 or more rides per week

An overhaul is a complete reconditioning of your bicycle. During an overhaul, we completely disassemble your entire bike in detail. We hand clean all components, re-lubricate them, reinstall them, and reassemble your bicycle. Then we perform a complete tune-up. An overhaul gives a dirty, well ridden bicycle a new life and greatly reduces wear and tear on all of its components. During an overhaul, we perform all repairs necessary to put your bike into the best shape it can be in for safe and reliable operation. New bearings and brake pads included, any other parts additional charge.
