As a Nevada native I have seen so many changes in this community; however the one thing that remains the same is that small town atmosphere. After asking a couple of questions to a new guest we realize that we knew each other in elementary school or lived down the street from them at some point or we have mutual friends.

Affordable luxury priceless beauty... I am a mom of three beautiful children, my husband and I work hard every day to provide the best for them. Unfortunately, we end up putting our needs aside as do so many of the men and women of today. That is where our salon is different from the rest. We are truly a "Family Salon" I thought about all of the women and men who are putting their kids first and themselves last when I set our prices. With that being said, our prices are lower but our service quality and guest relations is our highest priority. We provide complimentary head, neck and scalp massage or stress relieving hand massage with every hair service. Our Designers provide a complete consultation and education throughout their service in the Salon.

Our nail clients receive stress relieving hand massage. We only provide natural nail care and enhancements using true gel technology in effect reducing the odor in our environment.

As an Aveda Concept salon, we use environmentally friendly products in all of our service areas. Aveda products can be traced from soil to bottle with no animal testing and are produced from the highest quality pure plant and flower essence available.

I look forward to your first visit...
