# Shade Options

ARTISAN WOVEN WOODS ► ARTISAN LEATHER

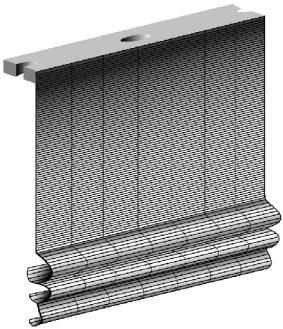

## Roman Fold

As shade is lifted from the bottom it forms soft folds which fit neatly under the valance when completely raised. Cordlock lift system is standard with Roman Fold.

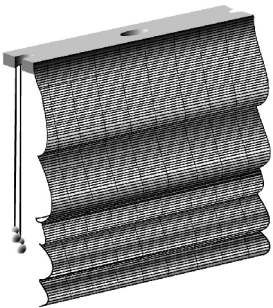

## Roman RollEase

A clutch mechanism and continuous pull chain makes it easier to lift larger shades and prevents chords from tangling.

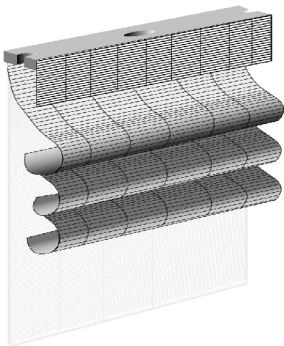

## Old Style Roman

Shade is mounted on front of headrail without a valance, for a clean look. Lift system operates from back of shade with cords/chain hidden.

## Hobbled Shade

Retain the beauty of overlaying folds even when the shade is lowered. (Standard Roman Fold is flat when shade is lowered).

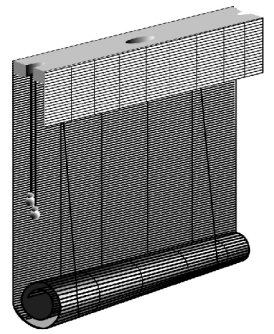

## Cascada

Retain the beauty of overlaying folds when the shade is raised. Instead of folding completely under the valance, as with Roman Fold, the cascading folds remain visible.

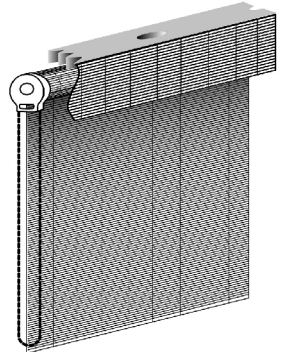

## Roll Up

Shade rolls up as it is lifted, staying in place with the help of the guide cords. Available with cordlock lift system only. Not available with lining.

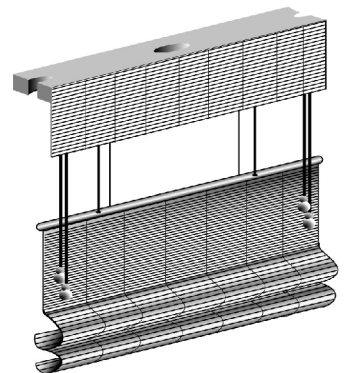

## Roller RollEase

Shade rolls around roller from the top and hides behind the valance. Clutch is operated by a continuous loop chain. Standard 1" width deduction for RollEase mechanism. Not available with lining. Not available in ARTISAN Leather.

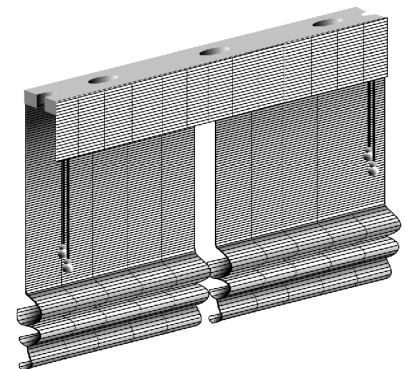

## Top Down / Bottom Up

Shade can be raised from the bottom, or lowered from the top, letting light in from the outside while maintaining privacy.

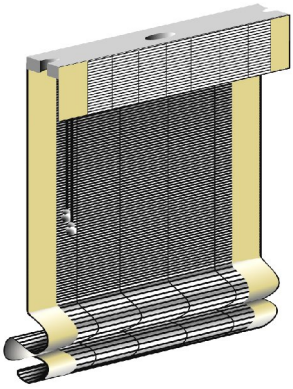

## Multiple Shades/One Headrail

An option for wide openings is to divide the width into two or three individual shades. In many cases, it is possible to mount shades on one headrail with a 1/4" gap between each shade and a continuous valance. Maximum total width 120." (No extra charge; priced as 2 or 3 separate shades)

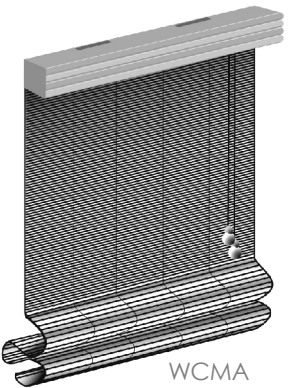

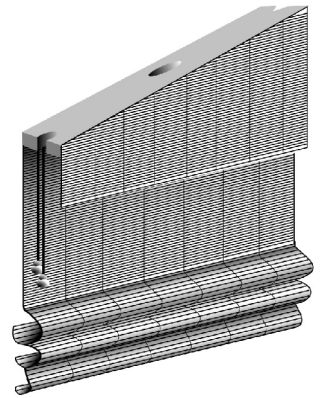

## Edge Binding

Fabric bindings give woven woods shades a custom look. Choose from 6 complementary colors, or supply your own factory approved fabric.

## Angle Tops

Windows with angle tops can have custom made shades to fit customer supplied measurements.

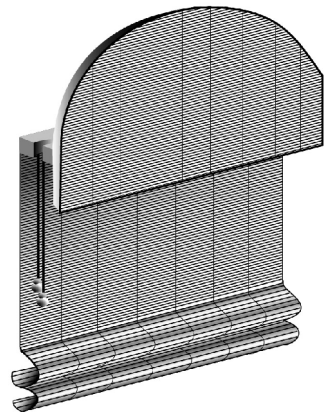

## Lambrequin Headrail

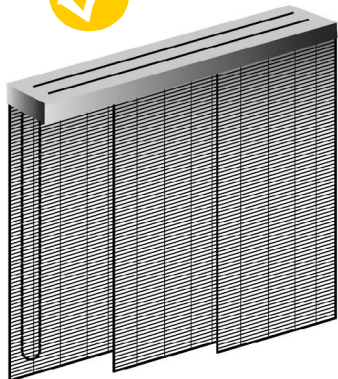

A series of decorative headrails featuring the beauty of solid hardwood while concealing the lift mechanism. Eliminates the need for valances and returns. Choose from four headrail styles stained to compliment shade color. Only available with cordlock.

## Stationary Arches

Stationary arches can be custom made for arched windows using customer supplied templates. Choose solid or translucent styles. Available as part of the valance or as a stand alone.

WCMA  
2004 Product Innovation Award  
LAMBREQUIN HEADRAIL  
SPECIALTY APPLICATIONS

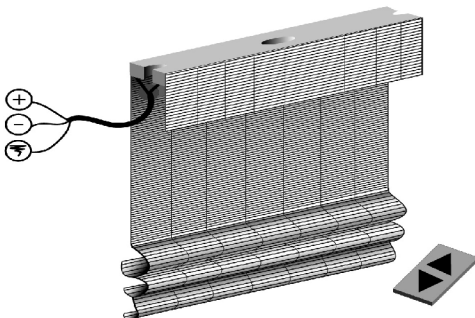

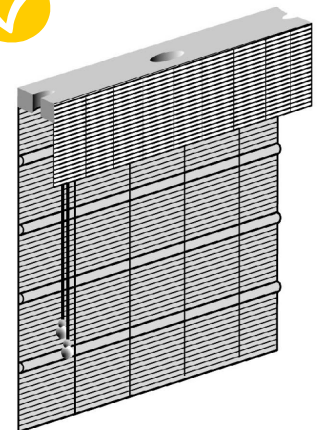

## Panel Tracks

Fixed panels are mounted on a track system for ease of control on larger windows. Not available in ARTISAN Leather.

## Roman Ribs

Pleats are moved to the front of this roman shade and filled with thin metal dowels to add structure and weight. Excellent shade style for lighter weight patterns. Not available in ARTISAN Leather.

## Motorization

Adding a motor provides the convenience of operating shades with a remote control or a wall switch. Minimum headrail width for motorization is 28"W.

Woven Woods Sliding Panel Tracks are an ideal choice for large windows and patio doors where a vertical window covering may be preferred. It's an attractive option instead of vertical blinds.

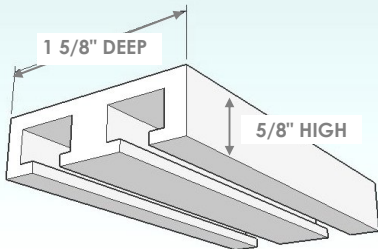

#### STANDARD FEATURES

- ▶ Track system accommodates 2 to 8 panels (White Aluminum)
- ▶ Right Stack ▶ Left Stack ▶ Center Split
- ▶ Cord or Wand Control (White Only)
- ▶ Patterns attached by Velcro
- ▶ Ceiling or Wall Mount

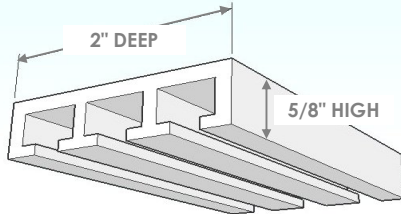

#### SIZE LIMITATIONS

- Overall HEADRAIL WIDTH ▶ 24 - 174"
- Overall SHADE LENGTH ▶ 42 - 150"
- Overall PANEL WIDTH ▶ 12 - 40"

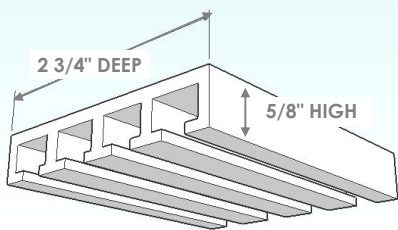

#### HEADRAIL SIZE 24 - 43" ▶ 2 TRACKS

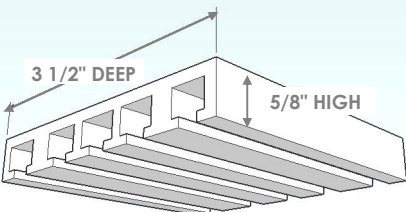

#### HEADRAIL SIZE 44 - 67" ▶ 3 TRACKS

#### HEADRAIL SIZE 68 - 137" ▶ 4 TRACKS

#### HEADRAIL SIZE 138 - 174" ▶ 5 TRACKS

#### ONE WAY STACKING (RIGHT OR LEFT)

2 TO 5 TRACKS

2 TO 5 PANELS

- 24- 43" W HEADRAIL ▶ 2 TRACKS ▶ 2 PANELS
- 44 -67" W HEADRAIL ▶ 3 TRACKS ▶ 3 PANELS
- 68-137" W HEADRAIL ▶ 4 TRACKS ▶ 4 PANELS
- 138-174" W HEADRAIL ▶ 5 TRACKS ▶ 5 PANELS

#### CENTER SPLIT STACKING

2 TO 5  
TRACKS

4 TO 8  
PANELS

- 44 - 67" W HEADRAIL ▶ 2 TRACKS ▶ 4 PANELS
- 68 - 137" W HEADRAIL ▶ 4 TRACKS ▶ 6 PANELS
- 138-174" W HEADRAIL ▶ 5 TRACKS ▶ 8 PANELS

#### MEASURING TIPS

- ▶ Panel track systems (panels and headrails) are made to customer supplied measurements
- ▶ Factory DOES NOT take any deductions
- ▶ Remember to allow for space at the bottom for panels to move freely
- ▶ Not all woven woods patterns are compatible with sliding panel tracks. Please refer to Pricing (page 8).

- Tula

PRICING IS SUGGESTED RETAIL

Add value to your woven woods shades by adding lining. Lining can filter the light, provide wanted privacy, and help to protect the natural beauty of the shade.

Linings are sewn to the back of the shade for a hand-crafted look. When Blackout linings are sewn to shades, sometimes small pinholes occur. Although the amount of light is minimal (size of a pinhole) total blackout is not possible. All of the fabric linings come at a **maximum width of 54"**. Shades wider than 54" will have linings with 2 or 3 seamed panels.

Choose from **Light Filtering** or **Blackout** lining, both in **White and Ivory**. (NOTE: Standard Lining is White; Ivory is available upon request.) Customer's own lining may be used if approved by manufacturer. C.O.M. lining is priced same as manufacturer's lining, NOTE: Lining is NOT AVAILABLE for Roll Up and Roller RollEase shades.

Please see chart at right for lining pricing.

## ARTISAN WOVEN WOODS ► ARTISAN LEATHER

## Edge Binding

PRICING IS SUGGESTED RETAIL

Also Available:  
Black &  
Customer Supplied Material

Fabric edge binding can create a customized look while helping to protect the edges of your woven woods shades. Made of 100% cotton twill, the binding comes in a 3" flat width which is sewn to the right and left sides of the shade and valance to create a **1 1/2" border**. Binding can be sewn to the bottom of the shade and valance at customer's request for no additional charge.

Choose from 6 complimentary colors: Copper, Beige, Olive, Natural, Burgundy, and Black. Customer's own edge binding may be used if approved by manufacturer. C.O.M. edge binding is priced same as manufacturer's edge binding.

To determine the cost of edge binding use the length of the shade (one side only) and refer to the chart at right.

EDGE BINDING CAN BE USED WITH MOST PATTERNS. TO FIND OUT WHICH PATTERNS ARE COMPATIBLE FOR EDGE BINDING PLEASE REFER TO THE COMPATIBILITY CHART ON PAGE 16.

# Production/Shipping /Payment

ARTISAN WOVEN WOODS ► ARTISAN LEATHER

## Standard Orders

- The production time for a standard order generally averages 10 to 20 business days (this does not include shipping).
- Orders for a large quantity of shades and/or additional options (such as lining, edge binding, top down bottom up, motorization, etc.) may need additional time. Please note your estimated shipping date on your order confirmation.

## Rush Orders

- The production time of your order can be expedited for an additional 10% surcharge.
- Please contact Customer Service for scheduling.

## Shipping and Handling

- Standard Shipping is UPS Ground.
- Shipping charges are indicated in the chart below.**

STANDARD SHIPPING RATES						
NUMBER OF ITEMS	1 - 2	3 - 5	6 - 10	11 - 15	16 - 20	21 or more
COST PER ITEM	\$12 ea	\$10 ea	\$9 ea	\$8 ea	\$7 ea	Call for quote
PRICING IS NET						

## Priority Shipping

- Priority Shipping is available through UPS or Fed Ex at an additional charge.
- Charges will be determined at time of shipping.

## Oversized Orders

- If your order includes shade widths of 84" or wider, a surcharge of \$75 may be applied.

## Credit Terms

- All new accounts are required to submit a completed FUA Window Coverings ACCOUNT APPLICATION before the first order ships.
- Until credit terms are established orders will be processed on a prepaid basis.
- Average processing time for a completed credit application is 1 week.
- Accounting will notify customer of credit terms and customer discount.

## Deposits

- A 50% deposit is required on all orders \$500 or over, regardless of payment terms.

## Payments

- The following forms of payment are accepted: Check, Money Order, Credit Card, C.O.D.
- All major credit cards are accepted for payment. Visa, MasterCard, American Express, Discover.

## Cancellations

- Cancellations cannot be accepted once your order is in production.
- In certain unforeseen situations, Customer Service will work with you to determine a mutually feasible and sensible solution.

## Changes & Alterations

- Should you have any changes or alterations, please contact Customer Service as soon as possible.
- Depending on what phase of production your order is in, there may be a surcharge of up to 35%.

## Returns & Refunds

- Because your shades are custom-made there are no returns or refunds.
- However, should a shade be damaged or defective, we will repair or replace components/complete shades according to our limited lifetime warranty.

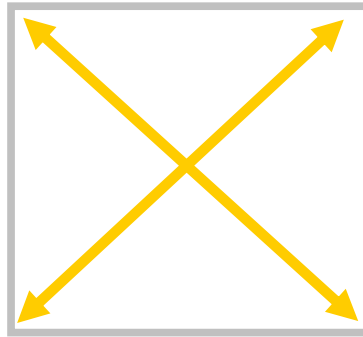

## Repairs & Remakes

- Remember to open and inspect all packages as soon as you receive them.
- If you discover any damages or defective products, contact Customer Service for a claim form **within 3 business days after receiving your order.**
- Before any authorized action can begin we must receive your completed claim form.

**WINDOWS SHOULD BE 'SQUARE'**

Before considering an inside mount shade, be sure that your window is square.

- Measure your window diagonally from the right side and the left.
- If the diagonal measurements match, your window is square.
- If the diagonals don't match, we recommend outside mount.

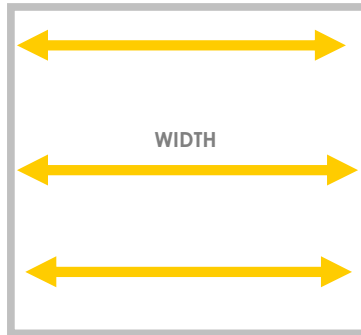

Diagonal measurements should match if window is square.

**INSIDE MOUNT**

For inside mount **WIDTH**

- Measure your window opening at the top, center, and bottom.
- Use the **smallest** measurement for your order form.
- The factory takes a total of 1/2" deduction (1/4" on each side) from the width measurement you supply to accommodate for mounting hardware. Customer does not need to take additional deductions.

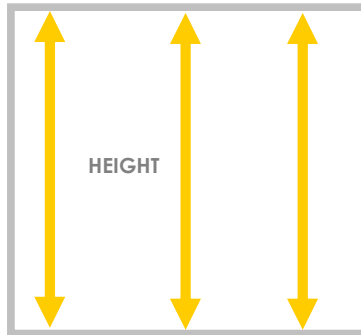

Use the **smallest** measurement.

**NOTE:** Factory will take a deduction of a total of 1/2" from measurement you provide. Do not take additional deductions.

For inside mount **HEIGHT**

- Measure your window opening at the left, center, and right.
- Use the **largest** measurement for your order form.

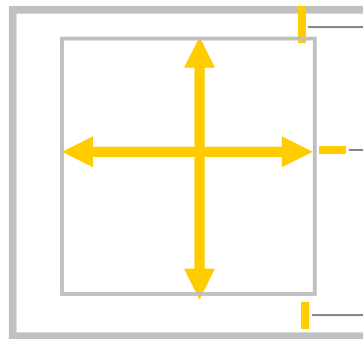

Use the **largest** measurement

**OUTSIDE MOUNT**

For outside mount

- Measure the width and height of your window opening.
- Include **additional width** to accommodate for shade overlap that will create privacy and light control. **SUGGEST 4" FOR EACH SIDE**
- Include **additional height** to accommodate for mounting brackets at the top, and overlap at the bottom that will create privacy and light control. **SUGGEST 4" FOR TOP AND 4" FOR BOTTOM**
- The factory takes no deductions on outside mount measurements.

**Add enough height** above opening for mounting brackets

**Add enough width** on either side of window opening for privacy and light control

**Add enough length** for privacy and light control at the bottom of window opening

**SIZE & SHAPE OF SLATS AND REEDS IN PATTERNS**

The size and shape of the slats and reeds used in our patterns may affect spacing from shade to shade.

- This variation is standard when working with natural materials.
- A standard variance in length for shades made with larger reeds and slats is approximately plus or minus 1/4".

# Shade Specifications

## ARTISAN WOVEN WOODS ► ARTISAN LEATHER

### Headrails

- All headrails are made of solid pine.
- 1 1/2" slots are on each end of the headrail to insert installation brackets.
- Headrail dimensions for each type of lift system are shown at right. Diagrams represent a side view of each headrail.

### Hard Valances

- Hard valances, made of a plywood structure and covered in a matching pattern, are designed for outside mounting as well as inside mounting.
- For outside mounting add 1/2" to each side. See diagram at bottom right.

### Mitered Headrails

- Miter cuts for headrails are available at no charge.
- When ordering a mitered headrail, be sure to specify the measurement of the back of the headrail and the miter cut angle.

### Cut Outs

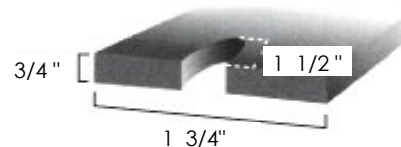

- Cut outs are available at no extra charge.
- When ordering, include a detailed drawing of the measurements and position of each cut out.

ROLLEASE CLUTCH

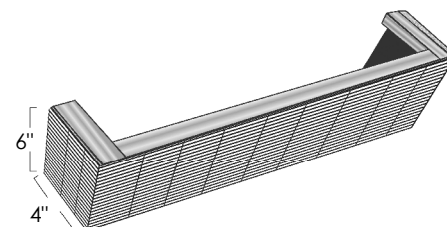

MOTORIZATION

### INSTALLATION TIPS

- Minimum installation depth should be considered according to each headrail diagram shown at right.
- Factory takes a 1/2" deduction from the specified width on all "inside mount" (IB) shades.
- Any creases caused by shipping may be ironed out with a household type steamer.
- Minor stretching and twisting is inherent to natural woven woods shades and material warping is sometimes inevitable. In most cases this can be solved easily by twisting the installed shade in the opposite direction of the warp.
- Lift cords on RollEase systems might lose their adjustment during shipping. They can be readjusted easily by sliding the cord clips on the RollEase rods.
- Crooked material may result from packing and shipping. In most cases this will correct itself after installing the shades and leaving them hanging for a few days.

NA Not Available

Random patterns, color variations, and differences in the sizes of materials are characteristic of natural woods and fibers and should be considered normal.

► There can be subtle color and materials variances from season to season, lot to lot, and sometimes shade to shade. When installing several shades in a room/area, it is best to order all at the same time.

► Tones & colors of actual shades may vary from sample books over time and with frequent use. Ask for current samples for color critical installations.

► Minor stretching, twisting and bowing is inherent in natural woven woods shades, especially with

► heavier patterns made with larger reeds and slats

► shades that are made wider or longer than recommended

► For larger openings an option is to split the width into 2 or 3 individual shades. It may be possible to mount multiple shades on one headrail with a 1/4" gap between each shade and a single valance.

► For shades made with larger reeds or slats, a length variance of plus or minus 1/4" may be applicable.

► Natural sun bleaching or fading may occur over time to the outside of the shade. Linings can help protect your shades.

► With fiber patterns such as Uxmal, Uxmal II, Edzna, Saylil, Coba, Itzamal, etc., sun exposure might cause faster discoloration. Linings can help to protect these patterns.

► Distinctive grains and color variations can affect the staining process of the reeds and slats of the Nogal patterns which include: Bombay Avellana Nogal, Bombay Nogal, Ceilan Nogal, Curazao Nogal, Guanajuato Nogal, Japon Nogal, Japon Nogal Beige and Tahiti Nogal. Over time, with frequent handling and the effects of sunlight, humidity, and moisture, the natural solvents of the stain may gradually fade. This is most apparent in sample books that are used regularly.

► Check your sample book to verify that you have the correct tones of Nogal. Finished Nogal shades should be within these tonal ranges:

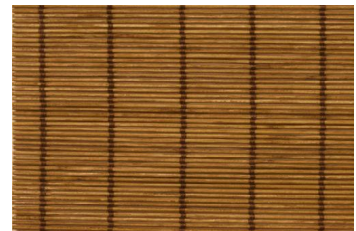

**Standard LIGHT NOGAL**

**Standard MEDIUM NOGAL**

**Standard DARK NOGAL**

## IMPORTANT GUIDELINES TO CONSIDER WHEN CHOOSING NATURAL WOVEN WOODS

- Sample size vs. actual size with pattern repeats
- Amount of light filtering through shade
- Ambient light: daytime and nighttime
- Context of installed shade: window trim, other window treatments, wall treatment, room décor
- Natural aging process

## CARE AND CLEANING OF YOUR SHADES

- Routine light dusting is all that will be necessary. Moisture should be avoided.
- DO NOT use water or cleaners on NOGAL stains.
- Should water come in contact with a shade, simply allow it to air dry with the shade in the full down position.
- Scrubbing with cleansers or blotting dry may permanently stain or deform the woven pattern.

## ALWAYS KEEP BLIND CORDS OUT OF THE REACH OF CHILDREN

- Nothing can replace proper adult supervision concerning the safety of a child.
- Whenever possible use safety cleats mounted high enough to be out of the reach of children and pets.  
(available with your order upon request)

## BEWARE OF OBJECTS BELOW OR NEAR A WINDOW THAT MAY PRESENT A CLIMBING HAZARD

- Move cribs, and other furniture safely away from any window treatment or cord hazard.

## NEVER TIE CORDS TOGETHER

- Should cords or any other part of your window treatment begin to fray, loosen, or operate improperly in any manner, immediately remove the treatment from the window and seek proper repair.
- In the event a bracket begins to loosen from the wall, immediately remove the treatment from the window, repair the wall using suitable anchors or similar options, and reinstall the shade properly.

## LOOSE BRACKETS OR IMPROPERLY INSTALLED SHADES PRESENT A FALLING HAZARD

- With such a condition your warranty will be void.

# Limited Lifetime Warranty

## ARTISAN WOVEN WOODS ► ARTISAN LEATHER

All of the shades made by the manufacturer are backed by our 50+ years of experience and commitment to customer satisfaction. We guarantee that the shade you purchased from manufacturer has no defects in parts or labor, and will be covered for any defect with a limited lifetime warranty.

## WHAT IS COVERED BY THE LIMITED LIFETIME WARRANTY

- repair or replacement of components or complete shades, that may be damaged or defective
- all repairs will be made with like or similar components
- repairs to actual patterns will be made with similar available sections of the same pattern

## WHAT IS NOT COVERED BY THE LIMITED LIFETIME WARRANTY

- any conditions or damages resulting from normal wear and tear, accidents, alterations, misuse or abuse
- any conditions or damages resulting from excessive humidity and exposure to the elements, natural fading or discoloration over time
- any conditions or damages incurred by failure to follow operating, installation, and cleaning instructions
- any additional fees incurred by the customer (e.g., **installation fees, trip charges, etc.**) freight charges to and from our facilities in New Braunfels, TX.
- **this warranty will be void if a customer, installer, or dealer modifies the original properties of any shade**

**NOTE: ARTISAN Leather shades are covered by the LIMITED LIFETIME WARRANTY, except for the leather strips/braiding and leather tassels which are guaranteed for one year.**

## TO OBTAIN WARRANTY SERVICE

- please contact manufacturer customer service as promptly as possible for a claim form
- before any action can be taken, a completed claim form must be submitted including the order confirmation number

**Please contact FUA Window Coverings Ltd if you have any questions regarding our warranty.**
