

Body Mud Treatments

European Rose Body Mud - Hydrating

- * Refines and softens skin
- * Accelerates cell renewal

Contains natural sun-dried rose clay extracted from the Provence region of France. Infused with alpha-hydroxy lactic acid, apricot and wheat amino acids, beta glucan, and rosa centifolia.

Black Baltic Body Mud - Detoxifying

- * Helps attract and absorb impurities
- * Assists in improving skin tone

Uses organic silts collected from deep underneath freshwater lakes in eastern Europe. Promotes detoxification, extracts pore-clogging impurities, and improves skin texture.

Firmi-Sea Body Mud - Firming

- * Tones & smoothes skin texture
- * Re-mineralizes skin

Uses rich concentrations of algae, minerals, and vitamins derived from seaweed varieties harvested off the Brittany coast of France. Firms, stimulates, and tones.
