

OUR STORY

At the age 15 the two brothers, Josh and Steven, began their careers in the restaurant industry. They started in their parents' fast food restaurant like any other team member, doing the dishes and taking out trash.

After paying their dues and working their way up the ladder, Josh and Steven were given the opportunity to transform one of their parents' fast food locations in Frisco, TX to what is now the first II Brothers' Grill & Bar.

The concept was designed on Josh and Steven's belief that if you serve great fresh food and treat your customers like family, they will return on a regular basis.

Beer and spirits are big part of the full service restaurant industry. Their goal is to serve the coldest beer in frosted glasses, and have the best tasting cocktails.

No one or even two persons can build a successful restaurant without having great team members surrounding them. That is why the brothers are always looking for the best of the best, and for those who are willing to give 110%.
