OFURO BATHS

Amatsu is pleased to introduce our traditional Ofuro Bath Experience. Our handmade, wooden Ofuro tubs bring back the ritual of the Japanese bath. The Japanese bath means much more than just getting yourself clean. It is a journey in cleansing, soaking and meditation to be experienced along with your massage or body treatment. Step into the wooden Ofuro and sink slowly into the deep, pure and clean hot water. Soaking, submerged to the chin, it is a time for repose and contemplation, a sensual pleasure and a feeling of wellbeing and harmony as you relax to soothing music, the warm scent of Hinoki wood and the calming effect of water. Ofuro Baths are complimentary with all massage and body ritual treatments.
