MCWTW Best Teacher Winner: Kimberly D'Angelo, Suburban Hills School

By JENNIFER L. NELSON
SPECIAL TO MENDHAM CHESTER WASHINGTON TWP. THIS WEEK

Kimberly D'Angelo, a pre-kindergarten teacher at Suburban Hills School in Chester, always dreamed of working with young children.

This year's winner of the annual "Best Of: Teacher" poll for Mendham Chester Washington Township This Week, the Chester resident has been teaching the program for four-year-olds at the school for 12 years.

"I've always enjoyed watching kids grow, and learning and seeing things for the first time," she said. For D'Angelo, the most rewarding aspect of being a teacher is the moment when one of her students fully grasps a concept for the first time.

"When they learn something new and their face lights up, that is by far the best part of being

a teacher," she said.

In the classroom, D'Angelo hones in on her students strengths and weaknesses, and devises lesson plans based on what's best for each individual child. She also considers the activities that her pre-kindergartners find most enjoyable, and tries to incorporate them throughout each day.

"We do a lot of hands-on activities, and I love to do arts and crafts projects with the kids," she says. Other favorite activities include reading, storytelling, playing, and "acting silly," she said.

D'Angelo grew up in Chester and earned her education through the Chester school district. "I went to all of the wonderful Chester schools, and now Suburban Hills has become a second home to me," she said. Her mother and sister have also taught within the district.

"This school is very close to me and my fam-

ily, and it's a great feeling to know that the children enjoy being in my class. It makes me feel good about what I do," she said.

When she's not teaching, D'Angelo can be found reading, traveling, or enjoying the great outdoors with her husband, Frank Brodeen.

MCWTW Best Teacher Runner-up: Nicole Polkowski, Bragg Elementary School

By JENNIFER L. NELSON
SPECIAL TO MENDHAM CHESTER WASHINGTON TWP. THIS WEEK

Flanders resident Nicole Polkowski has been teaching math and science to fourth graders at Bragg Elementary School in Chester for the past decade. The Chester native is honored to be selected this year's runner-up in the annual "Best Of: Teacher" poll for Mendham Chester Washington Township This Week.

"I have always wanted to be a teacher, and I absolutely love my job," she said. "I take great pride in making sure my students achieve their goals by providing them with the tools and skills they need in order to succeed — and the end result is amazing!"

Polkowski received her bachelor's and a master's degree in elementary education from

Fairleigh Dickinson University, and began teaching math and science in her second year at the school.

She has always enjoyed working with numbers, equations, and money, and infuses lesson plans with her enthusiasm for the subject matter.

"I love seeing my students' enthusiasm about what they're learning, and how proud they are when they accomplish their goals," she said. "There's nothing better than being the reason for my students' happiness and success."

When she's not teaching, Polkowski enjoys reading, cleaning and organizing, and heading to the Jersey shore in the summer months. She spends most of her free time with her family, and will be a first-time aunt this month: her brother, Jon, and sister-in-law, Anni, are expecting twin boys. She credits her parents for her success.

"My mom and dad's support and love made me who I am today. My students made it easier for me after my dad passed away last month — they put a permanent smile on my face," she said.
