

Hydro-Derma fusion

Hydrate and rejuvenate your skin from head to toe!

Our Hydro-Derma Fusion treatment combines infrared heat & nutrient-rich dense steam which work closely together to:

- Deeply moisturize your skin
- Cleanse pores & prepare skin for product penetration
- Dramatically improve tone & texture
- Acutely increase collagen & skin elasticity
- Extend the results of UV & UV-FREE Therapy

Designed for deep hydration, Hydro-Derma Fusion will leave your skin nourished, beautiful & rejuvenated.

Results are comparable to hydrated body wraps & steam bath treatments. Hydro-Derma Fusion will harmonize and re-balance newly hydrated, vitamin-rich skin in 20 minutes.

The Hydro-Derma Fusion delivered beyond my expectation! My skin has never felt so soft and appeared so youthful. I also enjoy doing a session before my Mystic or UV therapy sessions. My skin is left with a beautiful glow and results last much longer than normal.
