A LITTLE BIT ABOUT OUR MENU:

Garden Grove strives to provide customers with healthy and fresh meals using handmade methods and utilizing local produce, wine, cheese, and baked goods. Located in the heart of the Midwest, it’s important for us to use and support local growers for many reasons: local food is fresher and more natural, helps to sustain our local economy, and lessens the use of resources like fuel and packaging. This is why our menu is ever-changing, featuring specialty seasonal items. Some of our produce we grow right outside on our 2 acre garden, where we practice tradi-tional gardening methods with out the use of any harsh chemicals. A lot of our recipes were passed down through the family and whether it’s a fresh fruit pie in the summer, or a hearty vegetable soup in the winter, our quality will always be above the rest.
