Learn to Skate Today!

Our Mission

Our mission is to provide solid basic skating instruction which will enable skaters to skate for the rest of their lives, whether for fun or in the more competitive aspects of figure skating and hockey, as well as providing for health and fitness.

Our Program

The Danbury Arena Skating School is a structured program under the direction of Karla Delio-Jones designed to nurture skaters and to help them advance through progressive levels. This program, based upon the curriculum of the Ice Skate Institute's WeSkate program, allows the beginning skater to gain discipline, confidence and knowledge of basic figure skating and hockey skills. We will do our best to group students according to age and ability.

Our Staff

Staff professionals teach all skating classes and skaters are evaluated at the end of each session. It is very common for a skater to repeat a level. Each level builds a foundation for the next level, and thus it is imperative that all skills are mastered prior to advancing. Private or booster lessons are available from staff professionals. These may help a skater to progress through more difficult skills or to achieve more rapid advancement. Skaters should be encouraged to practice on public skating. Contact Karla for more information at (203)794-1704, ext 105 or by e-mail at kjones@danburyice.com.
