Famous 20-Point Full-Service Oil Change

Castrol GTX with TriShield™ Technology - \$36.99*

Unique triple-action TriShield™ technology actively protects the car you rely on by attracting, capturing and dispersing particles that build-up in engines and cause deposits. Provides the highest U.S. standard of protection against viscosity breakdown.

ECO Ultra - \$49.99**

Reduce your carbon footprint with ECO Ultra, a synthetic blend motor oil formulated with premium re-refined base oil and high performance additives through an environmentally-friendly process that saves energy, reduces pollution and reduces dependency on foreign oil.

Castrol SYNTEC Blend - \$59.99*

Specially engineered to provide unsurpassed wear protection under any severe driving condition and superior short-trip protection.

Castrol GTX High Mileage - \$59.99*

Specially formulated for vehicles with more than 75,000 miles. Helps extend the life of your engine by providing superior protection against deposit build-up.¹

Castrol EDGE with SYNTEC Power Technology - \$79.99*

An improved formula to keep your engine running at peak power longer. Fights power-robbing deposits, neutralizes acids that can cause rust and corrosion on vital engine parts, and controls oxidation to provide longer wear protection.

Castrol EDGE with Titanium Fluid Strength Technology - \$99.99*

Castrol's most advanced motor oil ever. This formulation provides Power (strongest dispersants to remove power-robbing deposits), Performance (strongest oxidation control to provide the longest wear protection) and Protection (lowest volatility for maximum performance).

Prices applicable for most vehicles using up to 5 quarts of bulk motor oil. Add \$3 for 4x4 vehicles. Additional charge for other brands and weights.

¹ = As measured in Sequence VG sludge test. * Available in 5W-20, 5W-30, 10W-30, and 15W-40.

** Available in 0W-20, 5W-20, 5W-30, 10W-30, and LE 15W-40.

Full-Service Supreme - Additional \$19.98

Our Famous 20-Point Full-Service Oil Change, Oil System Cleaner and Fuel System Cleaner, all for one low price!

Includes:

New Oil • New Oil Filter
Lubricate Chassis • Wash Windshield
Under Hood Visual Inspection
Under Chassis Visual Inspection

Check and Fill:

Power Steering Fluid • Battery
Transmission/Transaxle
Differential (Front and Rear)
Transfer Case
Radiator Coolant Recovery Level
Windshield Washer Fluid
Tire Pressure

Check and Inspect:

Brake Fluid • Air Filter
Crankcase Breather (PCV Filter)
PCV Valve • Lights • Wipers

Henry's Top-Up Guarantee

If you're low on any fluid within three months of your last Oil Can Henry's service, drive into any Oil Can Henry's, present the receipt from your last service, and we will "top-up" the fluid to its proper level at no charge. Does not include brake fluid.

Preventive Maintenance

Air Conditioning Recharge - \$119.99 and up

Restores the performance of your Air Conditioning System by removing moisture (which can damage AC components) and replacing lost refrigerant. Includes up to 2 lbs. of R134A. *At participating centers.*

Air Filter Replacement - \$15.99 and up

Protects your engine and maintains engine performance. A dirty or clogged air filter reduces the amount of air that can be drawn into the engine, which can reduce engine performance.

Automatic Transmission Flush - \$129.99*

Helps extend the life of your transmission. Replaces virtually 100% of the transmission fluid. Includes fluid change with up to 14 quarts of new ATF. **Extra charge for specialty fluids.*

Cabin Air Filter - \$39.99 and up

Often overlooked, the Cabin Air Filter promotes a healthier environment in your vehicle's cabin by preventing dust, pollen and other contaminants from entering the ventilation system.

Cooling System Flush - \$99.99*

Helps prevent corrosion, leaks and engine damage created by worn-out antifreeze. Service includes cooling system flush and replacement of fluid (up to 4 gallons of antifreeze/coolant). **Extra charge for extended life coolant.*

Emission System Cleaner - \$39.99

Removes carbon deposits and restores power and fuel economy by thoroughly cleaning the entire fuel and emissions system including fuel pump, fuel lines, fuel injectors, intake valves, and combustion chamber. Safe for oxygen sensors and catalytic converters

Engine Flush - \$49.99 and up*

Cleans out harmful sludge and contaminants from your engine to ensure maximum lubrication and engine life. Put clean oil into a clean engine. Includes up to 4 quarts and a standard oil filter. **Extra charge for special oil filter. \$7.99 per extra quart.*

Fuel Filter Replacement - \$69.99 and up

A plugged fuel filter will reduce fuel flow and engine performance. Fuel Filter Replacement helps restore engine performance and fuel economy, and ensures proper filtration of contaminants that can harm the fuel induction system. *At participating centers.*

Gear Box Fluid Service - \$49.99*

Drive train components require proper lubrication and protection against damage from heat and contaminants. Our Gear Box Fluid Service includes removing the old fluid, inspecting check and fill plugs, and replacing up to 5 pints of fluid. **Extra charge for synthetic fluids and additives.*

Light Bulbs/Headlights - \$7.99 ea. and up, installed

PCV Filter Replacement - \$5.99

PCV Valve Replacement - \$9.99

A properly functioning PCV system is essential for an engine's crankcase to breathe properly. A plugged PCV system will cause premature engine oil leaks, increase fuel consumption, and increase emissions.

Power Steering Flush - \$89.99 and up

Helps extend the life of the power steering system. Includes a flush of the power steering system and replacement of the power steering fluid.

Rain Repellent - \$14.99

Greatly improves your visibility by repelling rain snow and sleet. Better visibility in bad weather conditions can significantly improve response time, especially at night.

Serpentine Belt Replacement - \$79.99

Helps ensure safe operation of your vehicle. The serpentine belt drives several critical engine components, including the alternator, air conditioner, power steering, and water pump. If the belt fails, all these components fail, too.

Total Klean Out - \$19.99

A synthetic "all-in-one" fuel system cleaner that cleans all components of the fuel system, including the injectors, intake valves, fuel lines, fuel pump, and combustion chamber. Helps to restore lost power and performance in one treatment.

Wiper Blades - \$8.99 ea. and up, installed

Are You Normal Or Severe?

A study by AAA found that **more than 50% of all motorists follow the wrong maintenance schedule** for their vehicles because they mistakenly assume they drive under "Normal" conditions.

Why is this important? Most vehicle makers have two sets of maintenance schedules, one for "Normal" driving and one for "Severe".

If you frequently drive on short trips, drive in hot weather stop-and-go traffic or transport items on a roof-top carrier, you most likely should follow the "Severe" service schedule in your vehicle owner's manual. That may mean more frequent oil and filter changes.

Additives and Treatments \$12.99

COOLING SYSTEM LEAK STOPPER

Conditions and seals your engine to stop leaks from your vehicle's radiator or engine block that can cause over-heating and contamination of crankcase oil.

COOLING SYSTEM RAPID FLUSH Removes build-up, oil sludge and rust, which can inhibit the efficiency of your vehicle's cooling system. Use with our cooling system flush service.

ENGINE SEALER Rejuvenates dried-up seals to stop or reduce engine oil leaks.

COOLING SYSTEM RUST PROTECTOR

Protects the cooling system by preventing rust and corrosion, and lubricates the water pump to prevent squealing.

ENGINE TUNE UP Restores engine efficiency by cleaning sticky hydraulic valve lifters, dirty piston rings and gummy valve train deposits. Use with every oil change.

OIL TREATMENT Increases oil viscosity at engine operating temperature to give you increased engine power and decreased oil consumption.

FUEL SYSTEM CLEANER Cleans the fuel tank, fuel lines, and carburetor/fuel injectors as you drive to prevent rough idling and engine stalling. Use regularly.

OIL SYSTEM CLEANER Cleans out sludge, gum and varnish, and other contaminants that prematurely break down motor oil detergents.

TRANSMISSION STOP-LEAK Cleans and restores seals in your vehicle's automatic transmission for smoother and faster shifting and longer transmission life.

Our Brands Make Engines Go...And Keep Them Going

We proudly feature Gold Eagle brand additives and treatments. Founded in 1932, Gold Eagle is one of the world's leading automotive additive and fluid manufacturers.
