

### The Style

Grilling and smoking are two different ways to BBQ. Grilling is hot and fast and the flavor is only as good as the meat you are cooking. At Driftwood we do barbeque right, slow and low using hardwood to flavor the meat...taking even the toughest piece of meat and slow cooking it so it melts in your mouth. There is no rushing BBQ, if you want the real thing you need to cook the meat low and slow!

### The Taste

We smoke our BBQ slow and low- up to 16 hours- over hardwoods, like peach, apple, and cherry for a unique and exceptional taste. We understand the importance of eating fresh food without all the extra chemicals. We pick the right seasoning for each meat and let it go to work. The trick is keeping the fire low and letting the savory flavors soak in. Only then can that one-a-kind flavor emerge.

### The Smoker

Is that Truck on Fire cause it sure is Smoking? The Driftwood BBQ Food Truck is not your ordinary concession truck; it has an on board smoker that let's us turn out some of the most tender and flavorful BBQ anywhere you can think of.
