Art of Josephina
Fine Art Photography

Artist - Statement - Bio

"I photograph what I see or imagine I'm seeing, not necessarily what is there. I am a visual artist pursuing color rhythm and geometrics. For me, the camera and print process is interchangeable with pen, paintbrush and keyboard."

A self taught photographer of 30 thirty years, Josephina prints conventional and unconventional images in variety: on canvas, archival matte, film, silver gelatin, or whatever serves the image.

From her debut exhibition in Greece, Josephina has been reviewed as distinctively unique. "My Crete, my Milos..." the internationally famous exhibit was filmed, broadcast and displayed at Heraklion Municipal Andromon on Crete, Greece. "Photographing nature, color and geometrics is empowering. Through the mythology of structures, I seek narratives woven through lives and culture, seeing the world as poetically seductive."

Josephina's education includes CSU Northridge where she majored in Art and Creative Writing, completed coursework in music at UCLA, and general studies at Missouri Southern College, and Abstract Painting with internationally acclaimed artist, Annie Wharton. Josephina's images have been printed and filmed in many publications and venues. Art of Josephina is now based in Southern California near Oceanside.
