Get the Willis Music Advantage

Low Price "SuperStore" Guarantee!

That's right! Our prices are so low, we guarantee them! Our volume buying helps us to offer our customers hundreds of special deals that you won't find anywhere else! We shop the competition on a regular basis to make sure you'll get the best price. However, if you should see a lower advertised price from any other authorized dealer, before you buy, or even 30 days after you buy, just let us know and we'll gladly refund the difference. Never again should you be afraid that you may have paid too much! (see store for more details)

Huge Selection!

Willis Music is truly "The Musician's Choice". **Our stores are jam-packed** with thousands of items from the leading musical instrument manufacturers throughout the world. We stock hundreds of products you won't see anywhere else. Our huge multi-million dollar product selection allows you to compare name brand products side-by-side. **We make it easy for you to buy right the first time.**

Factory Trained "Super" Staff

Our staff has been trained by factory product specialists from all over the country. We're here to answer your questions before and after you make your purchase. By the way, our product specialists know that "Making you #1 is what makes us #1." We're large enough to get you the best price on the best gear, but small enough to give you the down home service you deserve.

"Super" Service Dept. when you need it!

We're here for you during those difficult times when you need qualified, prompt, honest service. We provide both warranty and non-warranty service. **If you need service after the sale, you'll be dealing with the same knowledgeable, friendly people that helped you make your purchase.** We'll do what's necessary to get you the prompt, "fixed right the first time" service you need.

Thanks for Making Willis Music #1

Willis Music's sales volume ranks us among the top 1% of all music stores in America! Thanks for your support over all the years. We're working harder than ever and constantly adding more value to continue to earn your business!

Part of the Willis Music Difference . . .

Robert Falcón studied music and music education at Texas University-San Marcos. His principal instrument was trumpet, which he has played since

he was in elementary school, and he has been playing guitar for as long as he can remember. In 1981, Robert joined The Willis Music Company, primarily in instrument sales. During the summer of 1985, he was promoted to manager of the Fayette Mall store in Lexington. Robert has since managed the Florence, Kentucky store and is currently the manager of the Eastgate Mall store in Cincinnati. He teaches privately and maintains his own studio teaching guitar (all styles), bass guitar, and trumpet. On Sunday mornings, you can find him singing tenor or playing guitar with his church choir. Robert and his wife, Kathy, have shared their love for music with their three children and grandchild who all sing and play instruments. His goal is to help others fulfill their dreams through and in music.

Jim Peppers has played piano since he was 5 years old, and began playing the organ at 13. He has had formal

training in Voice, Piano, Organ, and Conducting. He has been in the music business for over 12 years and been playing for 48 years! He has taught Bands & Choirs as well. Jim is manager of the Tri-County Willis Music store.

Brad Hulett: I have been playing music since age 7, and taken private lessons for 11 years. Current instruments played

include piano and keyboards, acoustic, electric and bass guitars, mandolin, and harmonica. I joined my first band right out of high school, and I've had the pleasure to be the opening act for such national rock acts as Bachman Turner Overdrive, Rare Earth, Three Dog Night, The Romantics, Edgar Winter Group, Leon Russel, the Romantics and others. I have been in retail for over 30 years - 26 of those have been with Willis Music, where I've been manager of the Lexington store for 23 years. I truly enjoy helping others getting started with their musical careers and have loved to watch many families with multiple musicians grow through the years.

Mike McAfee is manager at Hurstbourne Willis Music: I have been an obsessed musician since 17. I started on violin and clarinet before leaping

onto the rock & roll train with drums and guitar. I currently play locally with Eight Inch Elvis, Leo Magazine reader's poll winner for Best Rock Band and Best Cover Band. I've had the pleasure of selling musical instruments for more than 24 years and am beyond grateful to have a job that brings so much happiness to people.

Justin - Louisville

"I've been playing guitar for about 20 years now. I bought my first guitar from Willis Music from Mike McAfee. Guitar is the one and only instrument I play. I took lessons from my brother for about four years and from there just ran with it myself. I now play in a local cover band named Rocktimus Prime and have an absolute blast doing it. I have worked for Willis going on 5 years now and am in love with the job. It's exciting to be able to introduce and assist others with their musical interests."

YAMAHA

SINCE 1899

15

Unlike many other companies who buy guitars from factories and have their name put on, Yamaha crafts their guitars themselves. Here are just a few exceptional quality facts which I thought were significant:

- There are no automated machinery steps; each of the 281 guitar making steps is carried out by hand with hand tools (powered where necessary).
- More than 8 hours of work goes into each instrument, no matter the price.
- The wood acclimates naturally for up to 2 years for stabilization.
- A huge percentage of wood is returned because it's not up to Yamaha's standards and every ingredient is inspected, one by one, to make sure it's of high enough quality to make a guitar.
- The finish is applied and sanded 16 times, not just a quick 1-time run through.

I saw all these things for myself and therefore proudly endorse these fine Yamaha acoustic guitars as a Buyers Choice!

V-Pick

V Picks are hand finished picks that have to be tried and heard to be believed. Once you try one, you'll be amazed. The sound is bigger and fatter, both electric and acoustic. The pick movement is less from string to string, increasing speed. The unusual thickness of the V Pick shrinks the amount of string to string movement and actually increases overall speed. The material never slides around, but, instead sticks to your finger.

Dated Material

There are so many right reasons to give the gift of music.

It helps small children develop and grow, older children to excel in school, teenagers to express themselves, adults to relax and music even helps seniors find a path to wellness.

Music isn't complicated... it's easy to get involved!
